

BRO SHAVER® QUICK START

Congratulations on purchasing the innovative Bro Shaver Back Hair Shaver! The Bro Shaver uses up to three standard double edge (DE) safety blades for fast and close shaving with inexpensive blade refills.

If you're new to DE shaving it's important to properly prep your skin. Please use care when using this product. Remember, blades are very sharp!

Bro Shaver Blade Loading

1. Unscrew the three knurled knobs
2. Remove cover
3. Carefully insert three fresh double edge razors over bolts starting at slot marked "1" into cover.
4. Repeat with slots marked "2", and "3". See Figure 1.
5. Align handle head hole ports with bolts on cover and connect.
6. Tighten knurled knobs finger tight. Tighten well to ensure blades are forced down.
7. When blades dull, flip them over and use unused side.

Back Preparation * Important *

Clean your back with soap in a hot shower or bath for at least 15 minutes before shaving. This will hydrate your skin, making it comfortable for shaving.

Tip: Dry skin can give an uncomfortable shave. Shaving oily and dirty skin is not recommended since bacteria laden skin is prone to skin irritation. Brah, hit the showers.

You can shave either wet or dry:

Now you can shave either dry or wet.

Shaving Dry (faster): Dry your back. Shave gently.

Shaving Wet: While showering with warm water. Optionally apply shaving gel. Shave gently.

Shaving

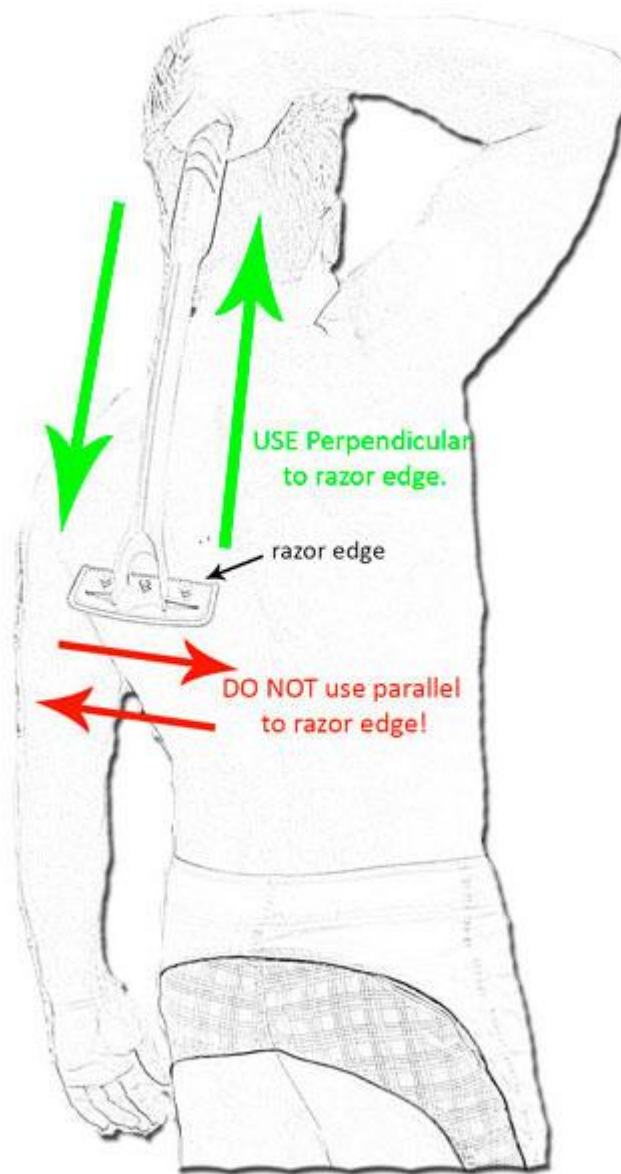

Figure 4. Shaving motion. Green denotes correct motion. Red incorrect.

For new shavers perform a test shave on arm or leg. **Note:** Do not use Bro Shaver on sensitive or irritated skin.

Tip: To avoid razor burn: Test shave a spot on your arm, or leg. Does the skin on the spot look whiter than normal? Does dry skin show up on that spot? Does it look *dusty*? In these cases you have dry skin and must take extra care to hydrate your skin in a long shower or bath before shaving. After, shave wet with shaving gel. You've seen the barber treating a man's beard with a wet towel. You just need a little extra prep.

Shaving Strokes

- Gentle strokes, let the shaver do the work
- Do not push hard!
- Do not shave over same area more than once
- Do not shave parallel to blade razor edge. Do shave perpendicular to blade razor edge.
- Use like a back scratcher
- Use over the shoulder (along spine, see Figure 4) and under arm (along waist)
- Verify that knurled knobs are tight and razors edges are aligned between strokes.
