

BRO SHAVER® 2.2 Saucy QUICK START

Congratulations on purchasing the innovative Bro Shaver 2.2 Back Hair Shaver! The Bro Shaver uses two standard double edge (DE) safety blades for fast and close shaving with inexpensive blade refills.

This is the most technically advanced back shaver ever made. Featuring incredible comfort with Comfy Cloud™ technology. And features two comfort shaving settings—“M” (Mild) and “S” (Saucy). Made for easy traveling. Quickly disassembles for storage in a bag. Perfect for big guys with limited flexibility, and muscular builds with heavy musculature.

Mild Setting – Start with this setting, move to Saucy setting for a closer shave.

Saucy Setting – Closer shave. Better for big and muscular guys with limited flexibility allows shaving at awkward angles.

Blades are very sharp. Handle with care. We recommend disposing of spent razors in sharps container, specifically, the *Bro Shaver Dumpster XL* razor disposal case.

Bro Shaver 2.2 Loading

1. Unscrew the three knurled knobs
2. Remove cover
3. Carefully insert two fresh double edge razors over bolts in gray cover razor slots
4. Place orange comb over razors, with desired shave setting facing the back of the unit
5. Align handle head through ports bolts.
6. Skip step 5 to use shaver for general body grooming without the handle.
7. Tighten knurled knobs finger tight. Tighten well to ensure blades are forced down.
8. When blades dull, flip them over and use unused side.

Back Preparation

Clean your back with soap in a hot shower or bath for at least 15 minutes before shaving. This will hydrate your skin, making it comfortable for shaving.

Tip: Dry skin can give an uncomfortable shave. Shaving oily and dirty skin is not recommended since bacteria laden skin is prone to skin irritation. Brah, hit the showers.

You can shave either wet or dry:

Now you can shave either dry or wet.

Shaving Dry (faster): Dry your back. Shave gently. Let the shaver do the work.

Shaving Wet: While showering with warm water. Optionally apply shaving gel. Shave gently while water runs over back.

Shaving

Figure 4. Shaving motion. Green denotes correct motion. Red incorrect.

For new shavers perform a test shave on arm or leg. **Note:** Do not use Bro Shaver on sensitive or irritated skin.

Tip: To avoid razor burn: Test shave a spot on your arm, or leg. Does the skin on the spot look whiter than normal? Does dry skin show up on that spot? Does it look *dusty*? In these cases you have dry skin and must take extra care to hydrate your skin in a long shower or bath before shaving. After, shave wet with shaving gel. You've seen the barber treating a man's beard with a wet towel. You just need a little extra prep.

Shaving Strokes

- Gentle strokes, let the shaver do the work
- Do not push hard!
- Do not shave over same area more than once
- Do not shave parallel to blade razor edge. Do shave perpendicular to blade razor edge.
- Use like a back scratcher
- Use over the shoulder (along spine, see Figure 4) and under arm (along waist)
- Verify that knurled knobs are tight and razors edges are aligned between strokes.

Watch a back shaving demonstration video on YouTube here: <http://bit.ly/111BRO111>

Post Shave

Remove blades from Bro Shaver, clean components, and dry components.

Recommended Blade Refills, only Pennies

Safety Notes

Do not use on sensitive, or irritated skin.
Keep out of reach of children
Always store Bro Shaver with blades removed.
Do not use a damaged unit.
